Modules

Module 1 – Fraudulent Entity Management

Intelligence

- Detect duplicate Fraudulent Entities.
- Validate scheme mapping with the selected FE.
- Maintain complete FE history.

Benefits

- Prevents duplicate FE creation.
- Ensures claims are linked to the correct FE.
- Improves master data quality.

Module 2 – Asset Attachment Management

Intelligence

- Detect duplicate assets.
- Track attachment, auction, and recovery status.
- Calculate recovered fund automatically.

Benefits

- Prevents duplicate asset records.
- Provides real-time recovery status.
- Improves settlement planning.

Module 3 – Depositor Master

Intelligence

- Create one unique depositor profile.
- Detect duplicate depositors using Aadhaar, PAN, Mobile Number, Passport, and Voter ID.
- Link all bank accounts under one profile.

Benefits

- Eliminates duplicate depositor records.
- Simplifies investor management.
- Creates a centralized depositor database.

Module 4 – Investment Portfolio

Intelligence

- Automatically retrieve all investments for the depositor.
- Display investments across multiple schemes.
- Display investments across multiple branches.
- Display investments across multiple Fraudulent Entities.
- Calculate outstanding investment automatically.

Benefits

- Provides a complete investment history.
- Eliminates manual record searches.
- Supports faster verification.
- Enables informed settlement decisions.

Module 5 – Claim Notification

Intelligence

- Validate investor eligibility based on notification.
- Prevent overlapping notifications for the same FE.

Benefits

- Ensures only eligible claims are accepted.
- Prevents administrative errors.

Module 6 – Online Claim Submission

Intelligence

- Auto-populate depositor and investment details.
- Detect duplicate claim submissions.
- Validate mandatory documents.
- Categorize uploaded documents automatically.

Benefits

- Faster claim submission.
- Prevents duplicate claims.
- Reduces incomplete applications.
- Simplifies document management.

Module 7 – Claim Verification & Evaluation

Intelligence

- Verify claimant identity.
- Compare submitted data with investment records.
- Highlight mismatches.
- Detect duplicate claims.
- Allow online additional document requests.
- Track document resubmission history.

Benefits

- Improves verification accuracy.
- Reduces fraudulent claims.
- Eliminates physical document follow-up.
- Speeds up claim processing.

Module 8 – Claim Approval

Intelligence

- Display complete claim summary before approval.
- Validate completion of mandatory verification.
- Prevent approval of duplicate or incomplete claims.

Benefits

- Enables informed decision-making.
- Prevents accidental approvals.
- Improves compliance with business rules.

Module 9 – Recovery & Settlement Management

Intelligence

- Calculate settlement amount automatically.
- Consider previous refunds and payments.
- Calculate remaining liability.
- Display available settlement fund.

Benefits

- Eliminates manual calculations.
- Prevents overpayment.

- Supports transparent fund distribution.

Module 10 – Payment & Claim Closure

Intelligence

- Validate beneficiary bank details.
- Detect duplicate payments.
- Maintain complete payment history.
- Update outstanding balance automatically.

Benefits

- Reduces payment failures.
- Prevents duplicate settlements.
- Provides complete financial traceability.

Cross-Module Intelligence

360° Depositor View

Provides a consolidated view of:

- All Fraudulent Entities
- All Investments
- All Claims
- All Payments
- Outstanding Amount
- Claim Status

Benefit

Officers can make faster and better decisions using a single consolidated view.

Global Search

Search using:

- Aadhaar
- PAN
- Mobile Number
- Customer ID
- Bond/MOU Number
- Claim Number

Benefit

Instant retrieval of complete depositor and claim information.

Audit Trail

Every activity is recorded, including:

- Claim Creation
- Verification
- Additional Document Requests
- Approval
- Payment
- Claim Closure

Benefit

Provides complete transparency, accountability, and compliance for internal and external audits.
